Resumé 2024 ● Moscow, Russia

Sotnikova Polina

Product designer/ UI&UX designer/ Developer

Telegram: @ttovarischh ↗
Portfolio: ttovarischh.com ↗

I have 7 years of design practice and 4 years of work with digital products under my belt. My experience allows me to lead projects from initial concept to successful market launch. My products address real user pains, while skills in a variety of design areas enable me to apply unconventional approaches. My strengths are analytical thinking, quick adaptation to new challenges, and creativity. I can help you to create products that **will really stand out**.

#Work experience

Art director, Toggle Studio ↗
Aug 2023 – July 2024

Responsibilities:

- → Development of the studio's branding and design system.
- → Work on the brand's communication strategy, development of a content plan and list of headings for social media.
- → Design and development of the studio's website.
- → Documents, presentations, treatments, and advertising creatives design.
- → Motion design and video editing.
- → 3D modeling, assembling of animated and static 3D scenes for projects.

Achievements:

- → Moved all work to Figma, optimizing processes for other designers and simplifying collaboration on projects.
- → Created branding, styleguide, and atomic design system for the studio from scratch.
- → Increased the frequency of posts in social networks from monthly to 2-3 times per week, leading to a 2.5x growth in social media followers.
- → Developed the studio's website, which attracted 2,667 unique visitors and achieved high conversion rates on key goals (social media clicks – 3.72%, email clicks – 1.86%), significantly boosting the number of project inquiries.

#Education

Bachelor, HSE ART AND DESIGN SCHOOL ↗
2020 – 2024

Specialization: «Design and coding», «Design and promotion of digital product»

- → In 4 years, I completed 31 projects across various fields, from product and communication design to game development and jewelry making. I gained skills not only in design and coding but also in marketing, business analytics, branding, and other crucial areas.
- → Led 3 year-long projects from concept to pitch deck and deployment to hosting.
- → Graduated with honors.
- → Mentors: Vadim Bulgakov, Violetta Postnova, Oleg Paschenko, Zakhar Day.

Secondary education, HSE LYCEUM ↗
2018 – 2020

Specialization: «Design»

- → Studied directly with professors from the HSE ART AND DESIGN SCHOOL. By the 11th grade, I had already tried myself in a large number of different design areas.
- → Completed my university entrance project with a score of 100 points.
- → Mentor: Konstantin Adzher.

#Advanced training

Illustration Short Courses,
University of the Arts London ↗
2019

an important role in supporting teaching activities and promoting student projects.
